

Academy of Science and Entrepreneurship

ABOUT

The Academy of Science and Entrepreneurship is a small, intellectually vibrant, MCCSC optional high school open to students in Monroe and neighboring counties. The school is a member of the New Technology Network and is a college and career prep program that focuses on Project-Based Learning strategies and 21st Century skills development. In partnership with Ivy Tech Community College and Indiana University, students can earn up to 30 college credits as part of their high school diploma. They also have the opportunity to explore select career pathways: STEM, Arts & Communication, Business, Marketing, and Entrepreneurship.

WHO WE SERVE

The Academy of Science and Entrepreneurship is an optional school in the Monroe County Community School Corporation. The school has just over 100 students in grades 9-12.

BEST PRACTICE

The school counselor used the SSP grid of activities and added pertinent information for activities that students completed at school. When the CHE Outreach Coordinator meets with students, they have all the necessary dates and other information to complete the SSP information on ScholarTrack.

HOW TO...

A step-by-step guide of how to implement the best practice.

Step 1: Determine what activities the students have completed through school activities.

Step 2: Add text to SSP grid with pertinent information to your school or community.

Step 3: Provide copies to students in computer lab when completing ScholarTrack.
